

# BANDSAW TENSION GAUGE

*From The  
M. K. Morse  
Company*

***The M. K. Morse Company now offers  
the Morse Bandsaw Tension Gauge.***

**Features:**

- Durable Cast / Powder Coated Body.
- Calibrated Gauge measures in lbs/in<sup>2</sup> and kg's/cm<sup>2</sup>.
- Quality storage box with protective foam inserts.

**This gauge will:**

- Quickly measure blade tension while the blade is on the machine.
- Check for under-tensioned and over-tensioned conditions.

**Proper tensioning of blades can provide:**

- Optimal blade life.
- Precise cutting results.
- Reduces the opportunity for machine damage due to over-tensioning.

***Call your M. K. Morse sales representative  
to see how you can get your's today.***
